

# Memorial Refinishing

We are now offering the service of refinishing your memorial. We remove the marker from the grave site and bring it into our shop. We separate the memorial from the base and then strip off all the existing paint and finish down to the bare bronze. After this we refinish it with a dark bronze finish and restore the original gold highlights. The final step consists of applying three layers of glossy clear coat final finish. We are sure you will be pleased with the result.

Single Marker \$175

Double Marker \$275

Vase \$30 (only done with memorials)

We recommend replacing cement bases at this time with granite.

Granite Single \$165

Granite Double \$200

Cement Single \$60

Cement Double \$75

Sample Memorial may be viewed in our office.
